

EMPLOYEE STORIES MATTER. SHARE YOURS.

One of the most effective ways to demonstrate how United Way improves lives is to have your fellow employees tell how they've been helped by United Way. This form will help you get all the information you need.

Will you share your story?

Have you ever participated in Scouts, Boys & Girls Club, or Girls, Inc? Have you or a family member received Red Cross safety training or swimming instructions? Has anyone you know needed family counseling, senior services, mental health services, services for a disability, subsidized child care or blood donations? If so, you probably received help from a United Way agency. United Way helps all of us.
